

Expertly provided training services can make the difference between just having great software and really using it effectively as a business management tool. When you select Kissinger, you'll receive thorough, hands-on training provided by certified trainers with solid business and accounting skills.

Kissinger trainers are **Sage Software Certified Trainers** with real-world business backgrounds and extensive training experience. Trainers specialize in different areas of expertise and hold a variety of authorizations, certifications, and licenses—including Certified Public Accountant (CPA).

## On-Site Training

- ▶ **Take advantage of customized, tailored training at your facility.**

On-site training services are geared toward maximizing your investment through procedure-oriented training for individual users or groups of users needing the same training. When training is being provided with a new system implementation, Kissinger trainers help you tailor the system to the way you do business. During your training sessions, your Sage-Certified Trainer will work with one or more employees to review and establish appropriate setup options for each of your modules. Each training session focuses on providing users with the skills to get the most out of the system and the best ways to use it to perform their job tasks.

“Excellent class—very informative. The class was taught by an excellent and patient instructor.”

—Cathy H.

“Very knowledgeable instructor. Your staff sent terrific info before class. Very impressed with Kissinger.”

—Eileen D.

## Classroom Training

- ▶ **Polish your skills without workplace distractions at our Authorized Training Center.**

Kissinger offers year-round certified training classes for Sage MAS 90 and 200 users in our Wyomissing (Reading), PA training center. Students receive thorough instruction and certified course curriculum. Hands-on classes are led by field-savvy training professionals who have met Sage Software's rigorous training certification requirements.

Curriculum-based training classes are also available for customers implementing an EDI Advantage electronic data interchange solution. EDI Advantage classes are instructed by expert EDI consultants with experience providing EDI implementation, training and customer support services.
