

Sage MAS 90 and 200

Year-End Processing Class

Get the information you need to process your year end closing with confidence!

Here's your opportunity to dramatically improve your Sage MAS 90 and 200 year end process with confidence! This class represents a big boost for your monthly and yearly productivity: it will show you how to accurately close each period for all of your installed MAS 90 or MAS 200 modules. You'll be amazed at how quickly you can become comfortable and confident with the process.

What You Will Learn:

- ✓ Sage MAS 90 and 200 order of closing
- ✓ Files affected during Year End Processing
- ✓ Answers to Common FAQs
- ✓ W-2 Preparation
- ✓ Helpful Hints

In this class, you will learn how to expand the functionality of your Sage MAS 90 or 200 system by following a procedure to accurately close your year end. **Attendees receive documented tools including module closing checklists** and helpful hints to master the year end process. Learn to increase productivity and your overall satisfaction by following the right procedures for your Sage MAS 90 or 200 year end close. This class will help you **provide your company with the confidence that your year end process will happen on time and with ease.**

Who Should Attend?

Business users and accounting professionals who want to increase productivity through a better understanding of the year end processing tools and procedures available in Sage MAS 90 and 200.
