

The reporting system more Sage MAS 90 and 200 users rely on for submitting Certified Payroll forms

CERTIFIED PAYROLL

Overview

Certified Payroll is an integrated enhancement for the Sage MAS 90 ERP and Sage MAS 200 ERP Payroll module which provides the reports required for the U.S. Department of Labor Payroll Form WH-347, plus other reports for unions and fringe benefit administration. The integration with the Sage MAS 90 and 200 Payroll module is seamless. When integrated with Job Cost, Certified Payroll uses the existing Job Masterfile for all of the necessary job-related information. The Certified Payroll report produces a detailed listing by Job Number and Labor Code of all hours worked and rates paid on reportable jobs. Contract Maintenance enables you to establish the minimum rates and fringe benefits required. Only the Payroll module is modified.

Features and Benefits

Certified Payroll Statement of Compliance

Versatile setup options allow you to configure the Statement of Compliance form to include additional information as may be required by your reporting agency. Multiple copies of the Certified Payroll Report and individually addressed Statements may be produced when you utilize Job Recipient Maintenance. Exceptions are reported as required by the fringe benefit plan for each job.

Minimum Wage Rate Checking

You are alerted during Payroll Data Entry if the rate paid is less than the minimum rate for the Job and Labor Code being entered. The minimum rate is displayed with an option to change the rate.

Labor Contract Maintenance

A separate labor contract may be maintained for each job, including minimum base rate and fringe benefit rates, cash paid to plans, and cash paid to employees in lieu of fringe benefits, for up to ten fringe benefit categories for each labor code in each job. The number and names of benefit categories may be different for each labor code in each job.

Job Masterfile Maintenance

If Payroll is not integrated with Job Cost, Certified Payroll provides a subset of Job Masterfile information in the Certified Payroll Job Masterfile. This file is used to report on job status and to validate Job Numbers during Labor Contract setup and Payroll Data Entry.

SAGE MAS 90 SAGE MAS 200

Includes Technical Support and Free Upgrades for One Full Year plus other Subscription Plan Benefits

Available for all Sage MAS 90 and 200 platforms including Sage MAS 200 for SQL Server

Reporting

Certified Payroll Report

Designed to satisfy the requirements specified by the U.S. Dept. of Labor, Wage and Hour Division, Form WH-347 and associated instructions.

Certified Payroll Statement

May be printed after each Certified Payroll Report. See details above left.

Fringe Benefit Reporting

Provides a detailed listing and column totals of hours worked and fringe benefits allocated under each benefit category.

Travel Time Reporting

Enables you to designate specific earnings codes which are reported independently of Regular and Overtime hours.

Custom Reports

Comes with ODBC (Crystal Reports), Report Master and Visual Integrator Data Dictionaries, providing full integration to generate custom reports with ease.

Time Entry by Date Worked

Hours worked may be entered for multiple jobs, labor codes and rates for each employee on a day-by-day basis, including time not associated with a job number such as administrative or shop time.

Recipient Maintenance

Lists of contractors and agencies to receive copies of the Certified Payroll Report may be established. You may select a list of recipients and specify the number of copies to be sent to each one for each Certified Job.
